

## InTouch Hosting Services

InTouch Hosting Services is a new offering from InTouch Receipting Systems affording districts the opportunity to have all InTouch applications and processes hosted on InTouch servers. InTouch Hosting Services manages the publishing of TouchBase and the renewal/binding of SSL certificates as well.

### **What is included:**

- SQL Server management and updates
- Database backups
- Windows Server updates
- TouchBase publishing
- TouchBase SSL certificate
- InTouch updates
- FTP folders for each district to download backups and transfer files

### **What is not included:**

- InTouch client installation
- Windows client updates
- TouchBase web store maintenance
  - Management and publishing of items, etc.
- Hardware installations
  - Computers
  - Printers
  - Cash drawers
  - Scanners
  - MSR (credit card)

# InTouch Hosting Services

## Pricing

Prices include hosting services for all InTouch applications modules installed within the district, and any modules added in the future. Prices also include the SSL and web server management for TouchBase.

Prices are subject to change.

Prices based on ADM.

District Size (ADM)	Monthly Rate
0-5000 students	Call for price
5,100-15,000 students	Call for price
15,100-39,999 students	Call for price
40,000 +	Call for price

## Current customer migration:

For current InTouch customers looking to move to InTouch Hosting Services – Client connections will need to be updated to reflect the new server name and database name. This will require maintenance on each InTouch workstation installed in the district.

## New customers:

New districts will install directly from the hosted connection settings.

## To learn more:

Please call InTouch Receipting Corporate offices to learn how your district can move to InTouch Hosting Services.
